1158-8XX   USB-C 3.2 Gen1 - RJ45 Gigabit Ethernet cable

USB-C - RJ45 CAT 6A S/FTP Cable, 1 Gbit/s, USB 3.2 Gen1, LSZH Jacket

With the USB-C 3.2 Gen1 - RJ45 Ethernet cable, you can easily connect your USB-C enabled device to a wired network and benefit from a stable and fast Gigabit Ethernet connection. The cable replaces the conventional Ethernet adapter and offers a space-saving, compact solution without additional devices. Ideal for laptops, tablets or smartphones that do not have an integrated LAN connection. It provides fast and reliable connections to the Internet - perfect for video streams, online meetings or data-intensive applications. Thanks to the support of Wake-On-LAN and "RealWoW!" (Wake-On-WAN) technology, you can even activate your device remotely. The safe LSZH(Low Smoke Zero Halogen) casing minimizes smoke development andtoxic fumes in the event of fire - ideal for installations in public orsensitive areas. The plug-and-play installation enables immediate use,and the cable is fully compatible with macOS and Windows - withoutany additional drivers or external power supply. A versatile and securesolution for any setup!

Fast, reliable network connection via USB-C - ideal for modern devices without an Ethernet port. Experience gigabit speed and seamless plug-and-play installation.

- Speed: 10/100/1000 Mbps (supports Gigabit Ethernet)
- CAT version: CAT 6A S/FTP
- USB version: USB 3.2 Gen1 (5Gbps), downward compatible
- Compatibility exists with the following operating systems up to their current versions: From Windows 7, from macOS 12, from iPhone 15 (iOS) , from iPadOS 16, from Android 14, from ChromeOS 116.0.5845.120, from Linux 22.04 LTS
- Plug-and-play: without driver installation
- Supported: Wake-On-LAN, RealWoW! (Wake-On-WAN) for remote access
- Power: USB-powered, no external power supply required
- Aluminum housing for long-lasting use

- Outer diameter: 6.2 mm, AWG 26
- Chipset: RTL8153E
- Advanced functions:
- Pair-swap, polarity and distortion correction: Improves signal quality and ensures a stable connection, even in difficult network conditions
- Crossover detection and correction: Automatic correction of cable twists ensures reliable communication without connection problems
- Full-duplex flow control in accordance with IEEE 802.3x: Enables bidirectional data transmission simultaneously for efficient network communication
- On-chip buffer support: Temporary storage of data packets
- ensures stable and continuous data transmission
- Energy efficiency & standards:
- IEEE 802.1P Layer 2 Priority Encoding: Supports network
- prioritization to optimize performance during simultaneous use. IEEE 802.1Q VLAN tagging: Enables network segmentation and improved data management through VLAN support. IEEE 802.3az-2010 (EEE = Energy Efficient Ethernet): Supports energy-efficient Ethernet connections to reduce power consumption during low activity.
- Power save mode: Supports power save mode during power off or link power down for even more energy efficiency.

Attributes

- AWG: 26
- Color cable: black
- Connector 1: USB C, plug
- Connector 2: RJ45, plug
- Connector surface: nickel-plated
- USB compliance: USB 3.0 / 3.1
- Category: CAT 6A
- Length: 2, 3, 5, 10 & 15 Mtrs
