

## 2 Way DisplayPort to DisplayPort Splitter

## 2 Way DisplayPort to DisplayPort Video Splitter, HD 4K @ 60Hz

## Ideal for use with 1080p & 4K Computer Displays.

4K DisplayPort Splitter allows you to distribute a DisplayPort signal to up to two DisplayPort capable devices such as external monitors, televisions, or projectors. Thanks to MST (Multi-Stream Transport) support, you can duplicate your desktop or display different content on each monitor. This increases productivity by making multi-tasking applications that much easier. The splitter thus provides the ideal solution for professional applications, including video wall presentations, graphical applications, and product presentations (offices/business spaces, trade fair exhibits, etc.), and for home use. You can experience your content with sharp 4K UHD resolution on up to two DisplayPort monitors, with the DisplayPort Splitter, regardless of whether you display photos, presentations, movies, videos, or games.

1 DP input; 2 DP outputs DisplayPort 1.2a compatible Resolution: up to 4K - 3840x2160p @ 60Hz Supports Deep Color 16 bit per color DisplayPort Video Bandwidth 5.4Gbps per channel Audio support 7.1 channels, up to 192 KHz sampling rate Compact housing - can be discreetly placed anyway Low power consumption Supports HDCP 1.3 Compatible with all commonly used DisplayPort cables MST (Multi-Stream Transport) support - display different content on each of the two DP monitors
