

2 Way DisplayPort to HDMI Splitter

2 Way DisplayPort to HDMI Video Splitter, HD 4K @ 30Hz

Ideal for use with 1080p & 4K Computer Displays.

4K DisplayPort Splitter allows you to distribute a DisplayPort signal to up to two HDMI devices such as external monitors, televisions, or projectors. Thanks to MST (Multi-Stream Transport) support, you can duplicate your desktop or display different content on each monitor. This increases productivity by making multi-tasking applications that much easier. The splitter thus provides the ideal solution for professional applications, including video wall presentations, graphical applications, and product presentations (offices/business spaces, trade fair exhibits, etc.), and for home use. You can experience your content with sharp 4K UHD resolution on up to two HDMI monitors with the DisplayPort Splitter, regardless of whether you display photos, presentations, movies, videos, or games.

1 DP input; 2 HDM outputs

DisplayPort 1.2a compatible

Resolution: up to 4K - 3840x2160p @ 30Hz

Supports Deep Color 16 bit per color

DisplayPort Video Bandwidth 5.4Gbps per channel

Audio support 7.1 channels, up to 192 KHz sampling rate

Compact housing - can be discreetly placed anyway

Low power consumption

Supports HDCP 1.3

Compatible with all commonly used DisplayPort cables

MST (Multi-Stream Transport) support - display different content on each of the two DP monitors

Unit 10, 2M Trade Park Beddow Way Aylesford Kent. ME20 7BT
