

M6 Push Fit Cage Nut Sets

3283-60PF

These push fit “cage” nuts offer fast and convenient mounting in 19” racks and avoid the potential pain and hassle of working with traditional cage nuts.

Features

- Nut simply pushes into place enabling rapid mounting; easy to remove if necessary
- Thread: M6
- Offered in convenient bags of 4 sets or 50 sets
- Choice of black (scratch resistant) or ‘steel’, coloured bolts
- “Cruciform” type screw head

NOTE: The nut is housed in durable polypropylene and offers good resistance when screwed tight. However, the housing is not steel so that the nut can be over-tightened and damaged if no care is given. **DO NOT OVER-TIGHTEN**
