

Active POE Splitter Adapter, 48V to 5V, POWER OVER ETHERNET ADAPTER

Specification:

Compliant with IEEE802.3af

Power Input: DC48~57V

Power Output: DC 5V 2A (10W)

Data & Power INPUT Port: RJ45 female (Compliant with IEEE802.3af/at PoE)

Data Output Port: RJ45 Male

Power Output Port: Micro USB Power Plug

Wire type: CAT5 or above unshielded twisted pair

Data Transfer Rate: 10/100Mbps

Power Pin: Support both 1/2(+), 3/6(-)

Features:

1. 10W micro USB Power over Ethernet PoE up to Remote via Ethernet cable, 802.3af PoE switch or 48v injector is needed
2. Power Output Port: 5V 2A Micro USB Power Plug
3. Compatible with 48-57V DC voltage, overvoltage protection
