Best performance and link quality for your network.

The DIGITUS® Category 6A Class EA patch cables are manufactured and tested to the ISO/IEC 11801 and DIN EN 50173 Category 6A specifications. By implementing a component level testing standard, these cables guarantee the installed cabling system is compliant with the ISO & EN channel specification requirements and will provide optimum performance levels of DIGITUS® Category 6A cabling. The performance is tested up to 500 MHz inclusive performance characteristics such as near end cross talk ("NEXT"). DIGITUS® patch cables are designed and produced to fulfill the highest requirements of various application areas in full volume. Each cable is fitted with a moulded boot which comes with kink protection and strain relief. Furthermore the boot is Equipped with latch protection, which helps prevent the latching lever breaking. Also you can easily identify the cable as Cat.6A, because the connector is colour coded, transparent yellow.

- 2x RJ45 (8P8C) connectors (Cat.6A Colour Code: Yellow)
- Boots with kink protection, strain relief and latch protection
- Length marking on boot
- Conductor: Copper (Cu)
- Category: CAT 6A
