SC-11D Connectivity Box

Overview

SC-11D is a Through-Desk Mount AV Connectivity Box from SEADA which can be flush mounted into a desk or boardroom table to provide discreet, out-of-the-way storage and connectivity of a wide range of AV inputs and outputs. The SC-11D Connective Box comes with Dual Universal power sockets which eliminate the need for power socket adaptors no matter which country it is used at.

This unit is ideal for installation in desks, boardroom tables, classrooms, demo rooms and so on, where a wide range of audio-visual sources or outputs can easily be temporarily connected, before closing the unit out of the way when not in use.
