

9200-800P

CAT.6 CONNECTOR FOR STRANDED UTP CABLE-
PASSTHROUGH (50 PACK)

SUPPLIED IN PACKS OF 50

This innovative RJ45 8P8C connector simplifies twisted pair terminations by allowing the wires to be inserted through the connector completely and out the front. This allows users to easily verify the proper wiring order. Because this also allows to tightly pull the connector down over the cable jacket it seats more tightly in the rear of the connector as well. This reduces the distance between the wire twists and contacts and improves performance.

No more wasted crimps! More reliable higher performance.

8P8C connections (8 ports for 8 cables with 8 connectors)

Designed for Stranded Cable - Not suitable for solid

Fits all RJ45 crimper tools

Supplied in packs of 50

Practical pass-through design for easy crimping

Suitable for conductors of max. 24 AWG

Unshielded UTP Crimp end
