

## COLOURED CLIPS FOR PATCHSEE CABLES

**PatchClip, the cable clip that brings flexibility within easy reach:**

**A complete line of cable clips available in 16 colours.**

**Packaging: blister pack with 50 cable clips of the same colour.**

**Cable clip identification system compatible with all cables in the PATCHSEE intelligent patch cord product line.**

**PatchClip reference: CC/PC (CC = colour). See Public Pricing page**

**PatchClip is a cable clip that helps you manage cables of different colours AND different lengths.**

**Simply by changing the cable clip, you can be sure to always have the right length and colour RJ-45 cable.**

**A flexible and cost-effective solution: no more need to fill your storage with excessive cable colour and length references.**
