Make Your Presentation Difference

Designed to help you make your point with confidence. Comes with multi-functional control keys allowing you to adjust the volume, click hyperlinks, switch windows, page up/down and transition to full screen/black screen. With a red laser pointer that's easy to see against most backgrounds and a wireless range of up to 50 metres, you can freely move around the room and mingle with your audience. Great for meetings, speeches and training.

Volume Control

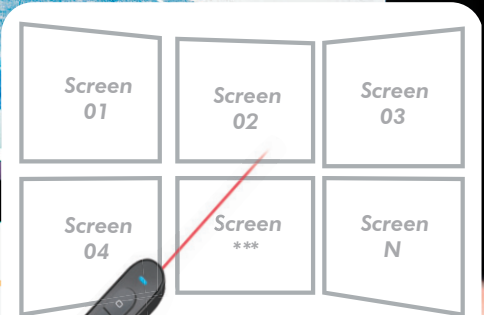

Multi-functional Controls

The intuitive 6-button design (Hyperlink, Page Up, Page Down, On/Off Switch, Laser, Volume), with the option to black the display out, you can go full screen or switch windows when needed. Effortlessly focus on what matters, your audience.

Present from Anywhere & Connect Easily

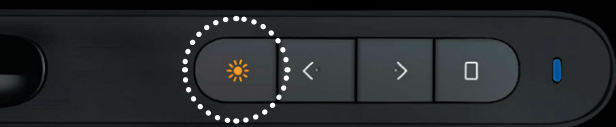

Plug-and-play instantly on any compatible computer via USB receiver; allowing you to make your ordinary presentation extraordinary.

* For special use cases, you can order extra dongles to control several different computers with one wireless presenter. Great for education and meeting settings.

Light Up Points of Interest

Illuminate your key message at the push of a button with the red laser pointer and impress your audience.

Minimalist Design

Compact and elegant design that is both lightweight and fits comfortably in your hand.
